

A-League 2006

Game Reports and season tips.

The first A-League game commenced on a gusty Hobart day that saw central play the northern bogans. Scoring up wind seemed to be a difficult task, whilst every point of the match had the team coming down wind playing a zone. For the new players at this level it was a real baptism of wind for them to learn just how zone is played and how best to throw the Frisbee away when it was put on them. Central came up with the goods, gaining an upwind point or two and ended up with a 9-7 win over the Bogans. It was a surprise that the game never got to half time. Is that a first?

The Bogans got to follow up their loss with a game against the Southern Confederates. A strong confederate's team was assembled for their first match. With the help of some pick-ups and the extra game the Bogans jelled quicker and managed to run away to a 9-6 lead and take the half. However to the confeds credit they came back after half and really started to play some nice flowing Frisbee. The confeds levelled the scores at 9-9 with about 10 seconds remaining on the clock. With one more point to be played it was all or nothing and the Bogans managed to take all. The final score 10-9 to the bogans.

With Central yet to play the confederates it's hard to see just how this A-League season will go. With the game between Central and South scheduled for the 19th of March it's too close to call. But if you're a gambler I say put your house, wife and kids on Central. With Central's experience they're going to be hard to beat by a team that's only played together once before. However it would be hard to overlook South as the favourites by the time it gets to the finals. As for the Bogans who have a lot of new players they're the dark horse. They will be able to cause some upsets along the way but it will be tough work.

Aaron learns difference between North and South.

You can't teach an "old dog new tricks". But somehow to everyone's amazement Aaron is finally learning to tell North from South. The teams for the new Frisbee A-League have been finalised with some confusion as to where people come from. After messing around with the teams Aaron has finally got them sorted proving he can tell North from South. These teams are now listed on the new A-League website at <http://tua.afda.com/ultimate/leagues/A-League/>

For his next trick Aaron is going to Learn Left from Right and by the end of the season he should be able to tell you which hand he throws with.
